Fourth-Quarter Business Highlights:

- Sales events, net of client losses, during fourth-quarter 2020 totaled approximately \$8.8 million and are expected to generate net annualized recurring revenues of approximately \$4.9 million when contract values are fully realized. For the year ended 2020, sales events, net of client losses, totaled \$94.0 million and are expected to generate net annualized recurring revenues of approximately \$68.6 million when contract values are fully realized.
- Revenues from Asset management, administration, and distribution fees increased primarily from higher assets under administration in our Investment Managers segment due to sales of new business and market appreciation.
- Our average assets under administration increased \$108.2 billion, or 16%, to \$779.7 billion in the fourth-quarter 2020, as compared to \$671.5 billion during the fourth-quarter 2019 (see attached Average Asset Balances schedules for further details).
- Our average assets under management, excluding LSV, increased \$21.2 billion, or 9%, to \$260.4 billion in the fourth-quarter 2020, as compared to \$239.2 billion during the fourth-quarter 2019 (see attached Average Asset Balances schedules for further details).
- The increase in our operational expenses was primarily due to increased consulting costs related to our continued investments in new business opportunities, such as our One SEI strategy and IT Services offering, as well as increased personnel costs to service new clients in our Investment Managers segment. This increase was partially offset by a decline in travel and promotional-related expenses, as our sales and client relationship personnel adapted to COVID-19 restrictions.
- Our earnings from LSV decreased by \$8.5 million, or 22%, to \$30.6 million in fourth-quarter 2020 as compared to \$39.1 million in fourth-quarter 2019. The decrease in earnings was primarily due to lower assets under management from market depreciation, negative cash flows from existing clients and client losses. LSV's revenues were \$102.1 million in the fourth-quarter 2020, as compared to \$126.5 million during the fourth-quarter of 2019.
- Stock-based compensation expense in fourth-quarter 2020 decreased \$2.5 million as compared to fourth-quarter 2019 primarily due to a change in our estimate of the timing of when stock option vesting targets would be achieved. We expect stock-based compensation expense during 2021 to be approximately \$42.7 million as compared to \$27.0 million during 2020 as a result of new options granted in fourth-quarter 2020 net of awards granted in the prior year.
- We capitalized \$5.5 million of software development costs in fourth-quarter 2020, which includes \$5.0 million for continued enhancements to the SEI Wealth PlatformSM (SWP). Amortization expense related to capitalized software was \$12.6 million in fourth-quarter 2020.
- Our effective tax rates were 19.6% in fourth-quarter 2020 and 19.5% in fourth-quarter 2019.
- We repurchased 1.8 million shares of our common stock for \$99.1 million during the fourth-quarter 2020 at an average price of \$54.36 per share. For the year ended 2020, we repurchased 8.0 million shares of our common stock for \$424.7 million at an average price of \$53.04 per share.
